LEVERETT'S LATIN LEXICON,

various on, Bursey.

The present edition of this standard and favorite Latin Lexicon has been much improved by the transfer to its columns of the classical distinctions of Latin words, as given in the Lexicon of Dr. Wm. Freund, of Germany, and translated by Riddle. The classical degree of each word is mids ated by a figure; for example, a word eithout a figure is fully classical and the common, with the figures translated by Riddle. The classical degree of each word is mids ated by a figure; for example, a word eithout a figure is fully classical and the common, with the figures on the condition of Leverett, and will be found a valuable acquisition. While transferring these notes and marks, catalogues were carefully kept of the words found in each texticon, which were not found in the other. On comparing these catalogues, it was found that the value and importance of the additional words found in Leverett, so far as a knowledge of the Latin language is concerned, very far exceeds that of those found in Riddle's Freund. The country, and the preference which has been universally given to it over all similar works, render its recommendance of the additional words found in laidle's Freund. The country, and the preference which has been universally given to it over all similar works, render its recommendances of the distinguished favor which the work has hitherto received.

BLACKWOOD'S MAGAZINE,

AND THE BRITISH QUARTERLY REVIEWS. BRITISH QUARTERLY REVIEWS.

Owing the has revolutions and counter-revolutions among the ns ions of Europe, which have followed each other in such q-dek succession, and of which "the end is not yet." the seading periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect seconds of the newspapers, and the elaborate and ponder as treaties to be furnished by the historian at a future day. Whoever reads these periodicals obtains a correct and connected account of all the important political events of the Old World, as they occur, and learns the various conclusions drawn from them by the leading spirits of the age. The American publishers therefore deem it proper to call renewed attention to the works they publish, and the very low prices at which they are offered to subscribers. The following is their list, viz:

THE LONDON QUARTERLY REVIEW. THE EDINBURGH REVIEW,
THE NORTH BRITISH REVIEW,
THE WESTMINSTER REVIEW, AND
BLACKWOOD'S EDINBURGH MAGAZINE.

In these periodicals are contained the views, moderately though clearly and firmly expressed, of the three greatest parties in England—Tory, Whig, and Kadkal; "Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig, and the "Westminster Review" Liberal. The "North British Review" owes its establishment to the last great esclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge. It was originally edited by Br. Chaimers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster. Its literary character is of the very highest order. The "Westminster," though reprinted under that title only, is published in England under the title of the "Foreign Quarterly and Westminster," it being in fact a union of the two Reviews formerly published and reprinted under separate titles. It has, therefore, the advantage, by this combination, of uniting in one work the best features of both, as heretofer issued.
